

TECHNI CONNECT 04 DK-1

Operating Temperature Range: - 60 / + 260 C°

Hose Features:

- Double sided silicone coated E-glass fabric
- Material Weight: 580 gr / m² (± 20 gr / m²)
- Tensile Strength (Transverse): 4277 N/5 cm

- Tensile Strength (elongation): 2757 N/5 cm
- Thickness: 0.45 mm
- Outer Spiral: Galvanized Steel
- Length: 6 metres
- Coating: 80 / 60 gr / m² Silicon DIN 66083 TNO 3883 Class 1
- Incombustibility Class: Freie und Hansestadt Hamburg 182.85.6

Suitable for use in:

- Hot air transfer
- Exhaust transfer
- Defence industries
- Aircraft ground support machines
- Low pressure applications
- Tent heater
- Hot air generator
- Moulding applications
